The Throwable Micro-Robot With A Micro-Price

The Recon Scout Throwbot LE is the world's most affordable tactical robot. It protects your tactical operators by providing immediate situational awareness, and it protects your budget by delivering life-saving capabilities at a full-kit price of just \$4,875. Designed and produced by ReconRobotics, the world leader in tactical micro-robot systems, the sophisticated design of the Throwbot LE delivers real-time performance when you need it most:

- Robot weighs less than 1.1 lbs, allowing for easy transportation and deployment
- Can survive horizontal throws of 50 feet and drops of 15 feet
- Stealthy operation at just 20 decibels – quieter than a whisper
- Video transmission range indoors up to 100', and outdoors line-of-site up to 300'
- Premier optical systems that perform in low-light environments

Like all other Recon Scout robots, the Throwbot LE works flawlessly with all Recon Scout accessories, including the Command Monitoring Station, 12-volt Car Charger, and SearchStick™ pole, a device that enables tactical and patrol personnel to convert the Throwbot LE into a versatile pole camera that can be used to see over walls, through windows and into culverts and other confined spaces. The Throwbot LE is ideal for tactical teams in smaller cities and towns, and for multi-jurisdictional agencies that share tactical equipment. State and federal grants are available to agencies wishing to purchase the Throwbot LE and its accessories. Alternatively, the robot is also available through an affordable Lease Program for which every U.S. municipal or county law enforcement agency automatically qualifies.

ReconRobotics, Inc. is the owner of various registered and use-based trademarks in the U.S. and worldwide, including Recon Scout, Throwbot and the dual-wheel, single-axle autonomous mobile robot. Unauthorized use of these trademarks without express, written permission from ReconRobotics, Inc. is strictly prohibited. Copyright © 2010.

Within the United States, sale of the Recon Scout to non-Federal and non-military entities is limited to state and local police and firefighters eligible for licensing under 47 C.F.R. § 90.20(a)(1) of the FCC Rules, and security personnel in critical infrastructure industries as defined in the FCC Rules, 47 C.F.R. § 90.7. Operation of this product by non-federal and non-military entities requires an FCC license. These FCC Rules do not apply to sales made outside the United States.
